* * * A very extensive Catalogue of Floricultural, Culinary and Agricultural
Seeds will be published at the usual time.

Gift of

[Entered at Stationers' Hall.]

Earl Blough

November 1957

EXPLANATIONS.

** indicate such *Hyacinths* and *Polyanthus Narcissus* as are most proper for forcing either in pots, glasses or moss; those marked with * succeed best in pots; all are proper for the open borders.

The *Amaryllidaceæ* (page 9) are chiefly greenhouse or stove plants; the hardy kinds are designated. The *Iridaceæ* are proper for the greenhouse or frame, but they succeed very well in the open borders with a little protection.

September, October and November are the best months for general planting. *Iris* and *Fritillaries* do not keep well out of the ground, and should be planted as soon as received, any time during the months of September and October; but they, as well as other hardy bulbs, may be planted much later.

Ladies and Gentlemen are respectfully informed, that if the choice of the *Hyacinths*, &c. is left to J. Carter, he will guarantee their giving entire satisfaction.

DOUBLE AND SINGLE HYACINTHS.

I. Adapted for pots, or the open borders.

		£	s.	d.
100 in 100	very fine sorts	4	10	0
50 in 50	do.	2	5	0
25 in 25	do.	1	2	6
100 in 100	fine	3	15	0
50 in 50	do.	1	17	6
25 in 25	do.	1	0	0
102 in 33	favourite do.	2	15	0
100 in 50	do.	3	0	0
50 in 25	do.	1	10	0
25 in 25	do.	0	15	0

II. Proper for pots, water, or the open borders.

25 in 25	extra fine sorts	1	15	0
25 in 25	fine	1	0	0
25 in 25	favourite do.	0	15	0
12 in 12	extra fine do.	1	0	0
12 in 12	fine	0	12	0
12 in 12	favourite do.	0	7	6

III. Proper for the open borders only.

200 fine	Hyacinths, named, in 10 sorts separate	5	0	0
100	do. do.	2	10	0
200 fine	Hyacinths, in separate colours, viz. light red, } dark red, light blue, dark blue, white } <td style="text-align: right;">2</td> <td style="text-align: right;">10</td> <td style="text-align: right;">0</td>	2	10	0
100	do. do.	1	5	0
200 fine	Hyacinths, all colours, mixed	2	5	0
100	do. do.	1	2	6

J. Carter requests to be informed whether the *Hyacinths* are intended for water, pots, or the open borders; also whether double or single *Hyacinths* are preferred, or part of each. If the selection is left to him, he generally sends two-thirds double and one-third single, which will be found to give greater variety. *Hyacinths* may be arranged with much more effect when there are duplicates or triplets of the same kind.

HYACINTHS.

DOUBLE HYACINTHS.

** for water, moss, pots, or borders.

* for pots or borders.

Those designated with g are proper for a greenhouse; the others are quite hardy. Orders for <i>Bella Donna</i> Lilies (<i>Amaryllis Bella-donna</i>) and <i>Guernsey Lilies</i> should be forwarded early in September or before.					
			IRIDACEÆ		
are proper for a frame or greenhouse, and succeed very well in the open borders; with the exception of the 3 <i>Tigridias</i> , they should be planted in the Autumn; for the Bulbs, some of the <i>Gladioli</i> excepted, being small, they will not keep out of the ground longer than November. <i>Gladiolus oppositiflorus</i> , <i>natalensis</i> , and a few others, will keep till March or April, but those planted in the Autumn flower much finer. The <i>Tigridias</i> may be planted

** Beautiful new sorts are continually raised from Seed. They all flower the second year. If sown on heat in August some of them would flower next year. They had better not be planted out till the following season after they are sown.

LIST OF CHOICE CARNATIONS AND PICOTEES.

The following beautiful Collection of Carnations and Picotees is from the usual source. J. C. will guarantee the correctness of every variety. Those not priced may be selected by the purchaser at 30s. per doz. pair, or 3s. per pair singly; but if the selection is left to J. Carter, the prices are as follows, and he will warrant them to give the greatest satisfaction.

			£	s.	d.
Carnations, fine show flowers,		per 50 pair.....	4	4	0

INDEX.

The Scientific Name of the Bulbs and the usual time of flowering when planted in Autumn are given. Explanations: 1-2 January and February; 5-9 May to September. Hyacinths, Narcissus, Crocus, Tulips, &c. when forced flower much earlier than when planted in the open ground; the early sorts of Hyacinths, for instance, when forced bloom in February and March; in the open ground in April and May.—g indicates Greenhouse or Frame; s Stove; † Greenhouse, Frame or open borders; * proper for pots; ** for glasses and for the open borders; those without designation are for the open borders only.
